## PROFESSION OF FAITH

A seasoned negotiator with over 19 years of experience in the fields of services, communication, and aviation. First started in the communication industry as a radio show host and assistant event producer. I worked with some reputable multinationals such as South African Airways Abidjan/Brazzaville, Air Namibia Abidjan, Chrono Post International Paris, Air Cote d'Ivoire Ghana/Abidjan/Liberia/Sierra Leone, then for Ghana and Liberia, where I'm celebrating 9 years as Country Manager. I was the first black woman to be president of the French Business Club (FBC) of French companies in Liberia in 2020–2021. A speaker for Rotaract Côte D'Ivoire and Lions Club Liberia on leadership subjects. I was appointed Secretary General of the Board of Airlines Representatives in 2011 in Cote d'Ivoire and currently an executive board member of the Board of Airlines Representatives in Ghana. I like reading and writing stories. All these rich experiences make me an expatriate since 2011; 11 years working for Côte d'Ivoire, Liberia, and Ghana (where I've been happily back since March 2021). I believe my skills, abilities, and experience make me an excellent candidate for the administrative position, and I will be very glad to contribute to supporting France International activities in Ghana and beyond.

## **PROFESSION OF FAITH**

As an active member of the Board of the French Chamber of Commerce in Ghana, I will be committed to promote France and French companies in Ghana. Having a French and Ghanaian citizenship make me believe that I can be a bridge between these two countries that are part of me. Indeed, I deeply wish to support France and Ghana's efforts towards a more integrated West Africa. Being the finalist representing Ghana for the event "Grande Finale Concours VIE Afrique de l'Ouest" in 2021 in Abidjan, and hosting, in September 2022, a special workshop for "Ahaspora Professionals Network" about opportunities as a French speaking Ghanaian to university students at Impact Hub are few examples. I would like to express my motivation to join the CCFI Board of Directors and actively representing the chamber by bringing my knowledge of the logistics sector in Ghana. I really feel that this role is the perfect step to take in my career and development.

I have been an active member of the French Chamber of Commerce in Ghana for the past 4 years. I am always delighted to attend events (networking, site visit, gala, etc) organized by CCIFG because I know I will always meet likeminded people at worst and upcoming customers at best. Indeed, CCIFG already supported us in meeting new customers and fostering relationships with partners and suppliers. CCIFG provides a conducive environment for business minded people. As the Managing Director of VRS (Voltacars Rental Services), I am a proud CCIFG member. As a matter of fact, I want to increase my commitment by expressing my keen interest in joining the CCIFG Board of Directors and actively representing the chamber to support and develop France's international activities. I am dynamic and outgoing young French male who will have at heart the interests of CCIFG and make sure it remains the leading chamber of commerce in Ghana.

As a board member of the CCI France Ghana, being director of Imexco Ghana Limited representing major French groups such as LVMH, Decathlon, Cocoa Barry and other brands, proud of my Franco-Lebanese multinationality and Ghanaian father, of Malian grandmother, Africa has been in my blood since my birth. We can find this heritage in France for decades already, we work night and day to promote French know-how in the food, sports and service industries. I have been working on the succession of our family group for over 6 years. After doing internships in multinationals and working in warehouses, this allowed me to understand all the value chain in order to service and deliver the best service with the best product. Our future ambition is to promote African products to the world. We manage to produce at a similar level to European factories, which will allow us to produce at source and send finished products to the rest of the world. Climate change makes us think and allows us to innovate even at our smallest level. I wish to present my candidacy to the board of the CCIFG in order to bring my expertise in international and local businesses to help increase the popularity of the CCIFG in Ghana.
